## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following action is taken in view of the responses filed 4/5/02 and 8/6/02.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 25 and 53 are rejected under 35 U.S.C. 102(e) as being anticipated by Yamakoshi et al.

Yamakoshi et al. teaches a apparatus and corresponding method of operation that corrects for systematic errors by detecting for these error with elements (13, 14) and correcting for the detected errors by the operation of elements (15, 20, 30). The Examiner has interpreted circumferential systematic errors as errors such as separations between read and write elements or non-parallel read and write elements. These errors occur predictably in the operation of the system. The limitations of claims 25 and 53 are deemed satisfied by this teaching.

***Allowable Subject Matter***

as discovered  
in interview  
11/14/03

magnetic phenomenon

varies along track not from track to track

4. Claims 57-71 are allowed.
5. Claims 26-28 and 54-56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

6. Applicant's arguments filed 8/6/02 have been fully considered but they are not persuasive. Concerning claims 25 and 53 applicant states that Yamakoshi et al. is not directed to circumferential errors but instead are radial in nature. Examiner does not agree with this statement since the offset (L) between the read and write head occurs when the head combination is positioned on a certain track and the delay time occur as the disk moves in a circumferential direction with respect to the head combination. Only after the circumferential error is corrected, using the arrangement in figure 6 is the head combination moved to the next radially displaced track.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
